Urgent Action Required by All Members

It is essential for all members to check their membership details on the existing website and ensure that the information is correct and includes an email

address.

Why?

Implementation of the new website is now approaching, on launch members will be able to access the new website using their email address as

their User Id as is common practice, to maintain security of information and processes.

On implementation all communication regarding membership renewal etc will be by email.

Postal communication with 850 members is no longer a practical or affordable option.

Furthermore delivery companies now insist on email and phone contact details of parcel

recipients when the club is despatching parts.

HOW?

Please Login, go to the forum, and click on your profile and enter email details

Any member who is unable to access their information to check and ensure it is complete and up to date must contact the membership secretaries

immediately.

You will be contacted by email after the website has been launched with more information about the functionality of the website and membership

renewal options which again will be on line using the website.
